American Compounding Team Recognized as a 2008 Campaign Champion

The Livingston County United Way is proud to recognize American Compounding as a 2008 Campaign Champion. Each year a select group of partner business are recognized for exemplary and significant support of the annual fundraising effort. For the 2008 campaign, American Compounding’s employee and company contributions totaled \$10,000.

American Compounding is unique in the fact that, from the time they opened their doors for business in early 2005, they have been recognized annually as a Campaign Champion. No other area partner company has received this elite status.

American Compounding partners, David Donie and Randy Rudisill, are recognized by the Livingston County United Way for their leadership to the Livingston County community, and for instilling these values into their corporate culture.

Thank you to the entire team at American Compounding.
You are Champions!
